July 31, 2004

Commissioner Kathleen Abernathy
445 12th Street SW
Washington, DC 20554

Commissioner Abernathy:

Dear Commissioners,

As a parent of two teenagers and an employee in the Garden Grove Unified School District, I urge you to promote a demphasis of violence in movies, television, music and video games. I urge you be responsive to the complaints from parents regarding the violent content in the media and be strong and clear in your censur of any and all media that overstep your already set boundries.

My children already benefit from two parents who monitor their entertainment. My worry is the society they are going to have to deal with, individuals who are great in number who have not had good supervision during their formative years. You as a public service entity must work on behalf of both those children from supportive homes and those children who are not well supervised.

Freedom of speech requires equal exercise in responsible social awareness.

We all must live together and my right as a citizen and parent to live peacefully and with reasonable protection from violence is equal to the right of another person's desire for self-expression.

Sincerely,
Rita Pease Hallas
Garden Grove, CA

Sincerely,

Rita Pease Hallas

Washington, DC 20554

Commissioner Adelstein:

The violence we are bombarded with on television shocks and digusts me. I refuse to watch the violent shows but unfortunately many do watch, especially our young people. My husband was watching a show recently involving forensics. I happened to be in the room. A violent murder was graphically reenated. It was horrible! Even my husband kept shaking his head. When people are exposed to this day after day is it any wonder nothing seems wrong anymore? Please clean up the shows we are offered. Many children are not supervised and watch anything they want. We MUST protect them too. This problem is of great concern to me. Thank you.

Sincerely,

Vicky H. Love

Commissioner Abernathy:

I would like to voice my own complaint about the quantity and severity of violence on TV.

Instances of this seems to have increased exponentially in the past few years to the point where our family now watches only a handful of shows during the week because of the poor quality of programs offered.

It would be wonderful if the FCC would not only monitor programming of this sort but curtail much of it which crosses the line from part of the story line to nothing more than gratuitous and savage.

I look forward to seeing changes in this area in the not too distant future.

Sincerely,

Jody Ormsby

Commissioner Kathleen Abernathy
445 12th Street SW
Washington, DC 20554

Commissioner Abernathy:

This is to urge you to use your positions and efforts to curb violence in the media and expecially on television. Yes, there is violence in our world and always will be. No, we should not major on it as if it were what we should make our life's goal. We should be educating our youth in kindness, fairness and patience, not striking out with optuse violence at the least aggravation. Yes, violence sells. No, we should not allow those who would desecrate our kindness, honor and moral fabric for cash in their pockets.

People, youth, children, react to what they know, what they have learned. They learn from what we see, hear, touch, etc.--not anything new. That is the way we have learned to educate our youth. When faced with a challenge, a child's, youth's or adult's first reaction will likely be what is stored in memory---what has been learned. Feed violence into that memory storage and violence will be the first response. The old truism frequently operates, "we are part of everything we have met." Let us help them meet better stuff.

Another long-held purpose of mass education, art and entertainment should be promoting that which is "socially redemptive"---that which uplifts and promotes the best in human behavior and relationships. We need to work toward better ways to live together, to promote the well-being of each other, not destroy each other. There will be enough violence without us demonstrating more aggressive ways to use it. Violence is hardly, if ever "socially redemptive."

Therefore, I request you to use your position and efforts to show our youth how kind and supportive our culture can be and not allow others with a profit and/or some other distorted purpose, show how violent it can be.

Sincerely,

James Clark

Commissioner Kevin Martin
445 12th Street SW
Washington, DC 20554

Commissioner Martin:

I would love to be able to watch evening TV with my children. Everything that is on is sex or violence. What ever happened to Andy Griffith and Dick van Dyke? They were funny and didn't require sex talk and violence. Can't we help our kids by giving a choice on evening TV? Betsy

Sincerely,

Betsy SEckman
